SECTION 01 · CHANNEL SNAPSHOT

Key channel metrics

Each card is a separate health indicator. The line under the number says which period it covers.

 SUBSCRIBERS 7,671 per Telegram	 REACH VS BASE 6% views per 100 subscribers	 VIEWS / POST 472 median 490	 POSTS / WEEK 400.0 over 1 days analysed
 7-DAY TREND — not enough data	 REACTIONS / POST 4 0.6% of views	 POST LENGTH 71 chars average across posts	 POSTS ANALYSED 400 400 in the channel overall

EDITOR'S SUMMARY

Reach is modest — 6 views per 100 subscribers. Posting is dense — 400 publications a week.

SECTION 02 · CONTENT ANALYSIS

What performs best

Top posts by engagement and the weakest ones – so it is clear what to repeat and what to drop from rotation.

WHAT THE BEST POSTS HAVE IN COMMON

- 01 The main format is **text** (100% of posts in the period).
- 02 Average post length – **71 characters**.
- 03 Reading peaks on **Monday**, around 19:00.
- 04 The gap between the best and the weakest posts is **3.6×**: topic and delivery matter more than frequency.
- 05 The analysis covers **400 posts** over the last 30 days.

SECTION 03 · STRATEGY

What to do right now

2 priority actions, ordered by expected impact. Tick them off as a checklist and come back to this report in a month.

01**Put the week's main post on Monday**

This day historically gets the best response, peaking around 19:00. Moving key announcements into that window costs nothing.

IMPACT

+10–15% views**02****Buy traffic systematically**

Without a flow of new subscribers reach falls even with good content: the base burns out. We bring targeted audience from topical channels and ads, with a report on cost per subscriber.

IMPACT

base growth
